The meeting convened pursuant to adjournment.

Judge Wick not being present, Judge PEASLEE was called to the chair, pro tem.

The meeting then adjourned to meet at the same place

The committee appointed for the purpose, submitted the following resolutions: Resolved, That (in the language of the St. Louis Committee.) "the grand problem of ages, in regard to a Western Route to Asia, is about to be solved. Recent events

as to authorize the formation of new States within a short time, render the immediate resort to the means of sure and easy intercourse, and continued connection with them, matters of over-ruling necessity."

Resolved, That the construction of a railway to San

Francisco would not only serve to bind more strongly this great Nation in the bonds of mutual interest, but would

so apparent that no constitutional doubts can exist as to the power of the General Government to render such aid, by the appropriation of National means, as may be

deemed necessary and expedient. Resolved, That our Senators and Representatives in Congress be requested to use their influence to induce the National Government to aid in the construction of said

THE receipe from which the SHAKER SARSAPARILLA is made, was purchased nearly a year since, (at a great exposse,) from an old doctor, belonging to that peculiar sect, (the Shakers) and although it has not been made public until the present time, it has n extensively used by many of the FIRST PHYSICIANS

And families of Cincinnati, who have pronounced it FAR SUPERIOR To any other preparation of the kind ever yet offered to the public. The mode in which it is prepared, viz: by steam, enables the proprietor to extract from the herbs used their full strength and real essence, a desideration which has never yet been obtained in the manufacturing of any other Sarsuparilia Compount, hence its vast superiority as to its medicinal qualities, over all other would be SARSAPARILLAS.

To those at present using a Saraparilla mixture, a single trial will convince them of the above fact.

The wonderful bealing powers of this preparation are due to the manner in which it is prepared, (namely, by steam,) as well as to the composition of the ingredients used. Its leading ingredient be-

CINCINNATI, March 15, 1849. Da. Howe: Dear Sir-My son, when about six month oid, broke out with that dreadful disease. Scrofulous Scree, over the face and body; and for two years and a half I tried every means that could be suggested by my friends; I also had the nevice of gix or seven of the best physicians in the country, without effecting a cure, and I almost wished the little sufferer dead, that it might be freed from its pains. During the last six months, the sores were so distressing and painful, healed up the sores, so that there is scarcely even a scar to be seen . We only regret that we did not hear of, and commence using it sooner, as we are satisfied it would have saved a great deal of suffering and expense. The child's now well and hearty. We do unhesitatingly consider your Shaker Sarsaparalla one of the best preparations now in usc.

CINCINNATI, March 15, 1849.

Da. Howe: Dear Sir—Having witnessed the influence of your preparation of Shaker Sarsaparilla, over diseases which often baffle the skill of the best physicians, I feel it a duty to you and to the afficted, to make the following statement:

My wife has been sorely afficied with Tetter (which is one of the greatest scourges to the human family) for the last fourteen years, during which time I have consulted and employed a number of the most eminent physicians in the country, and but with little success. I was last persuaded to try your preparation of Shaker Sarsaparilla, though I had but little confidence then that it would effect a cure. But I was most happily disappointed, for she had not used more than one hich he enjoyed in an eminent degree, and which causes his was most happily disappointed, for she had not used more than one bottle before the happiest results were produced, and after the use of two bottles, the disease had entirely disappeared. I have not the least doubt but that the most obstinate cases of Tetter can be radically cur-

This is the oldest Physiologico-Medical College in the United States; its p ogresse has been most antural from a germ, planted in a genial soil and fortered by the most hing and fathful cultivators. It has struck its most deep in the configuration and respect of the people, and seared its trunk and branches into be intelligence and pride of its students, and many other telephole, and state the state of the people. ers of science. It has attained an altitude of knowledge and use-futness, that cheers the hearts of the friends of truth and philan thropy. The torch of sound medical reform was first lighted at his fires, and it is still the great Ploneer in heralding sefe medication; it holdly steps in advance of all others in the advocacy of simple,

mild and efficacious therapeutic ngents.

Its froulty beholds in the science of man, all that humanity wants for its physical, mental and moral development. This science is its presiding deity—its great eyeoure. Its Professors are thoroughly imbaed with the liberal, demonstrative and progressive spirit of the age. The best and safest means for the presention a d curs of discuse, is the burden of their is ers—the prize of their race—the axis of their actions and the mainstring of their more ments. They have cleared the Augean Materia Medica of the Old School of its mischief, violence and poisons, and left only the innocent and senative agents of the three-fold kingdoms of nature. to meet the invisible enemy of the sick man. With these, they meet disease and invite the world to try their potency. The Faculty combine the rare qualities of conservatism and hold high-minded inquiry, and are the warm and allied friends of investiga-tion and free thought.
